Thank you for purchasing **Lane Master**. We hope you enjoy the product.

This manual contains valuable information about how to operate and maintain your game machine properly and safely. It is intended for the owner and/or personnel in charge of product operation. Carefully read and understand the instructions.

If you need any help during installation and setup please utilize this manual and troubleshooting guide. If the product fails to function properly, *non-technical personnel should under no circumstance attempt to service the machine*. Contact your distributor or manufacturer for help.

Before use, please read **IMPORTANT SAFETY INSTRUCTIONS**.

IMPORTANT SAFETY INSTRUCTIONS

To ensure the safe usage of this product, carefully read and understand these instructions before operating your game.

Save these instructions for future reference.

Use this product only as described in this manual. Other uses not recommended may cause fire, electric shock or personal injury. Unplug the game from the outlet when not in use, when moving from one location to another, and before cleaning/servicing.

Explanations which require special attention are indicated by signs of warning. Depending on the potential hazardous degree, the terms: **NOTE**, **NOTICE**, and **WARNING** are used.

NOTE: A NOTE indicates useful hints or information about product usage.

NOTICE: A NOTICE indicates potential damage to product and how to avoid the problem.

WARNING: A WARNING indicates a potential for product damage or serious personal injury.

It is important to understand the meaning of the following HAZARD SIGNS before continuing:

High Voltage and Shock Hazard:

High voltage can cause electric shock.
Turn off/unplug power before servicing.

High Temperature Hazard:

This part may cause scalding.
Do not touch. Surface may be hot.

No Touching Hazard:

This part may be hot or can cause electric shock.
Do not touch.

Use the following safety guidelines to help ensure your own personal safety and to help protect your equipment and surrounding environment from potential damage.

This product is an indoor game machine. Do not install outdoors.

Avoid installing in the following places to prevent fire, electric shock, injury and/or machine malfunctioning:

- Places subject to rain/moisture, or places subject to high humidity.
- Places subject to direct sunlight, or places subject to extremely hot or cold temperatures to ensure that it is used within the specified operating range.
- Places where inflammable gas may be present or in the vicinity of highly inflammable/volatile chemicals or items that can easily catch fire.
- On unstable or sloped surfaces. The machine may topple or cause unforeseen accidents.
- Vicinity of fire exits, fire extinguishers etc that may block/prevent safety measures.

IMPORTANT NOTE:

ALL REPAIRS MUST BE DONE TO ORIGINAL MANUFACTURER SPECIFICATIONS. FAILURE TO DO SO VOID ALL WARRANTIES AND OPERATOR ASSUMES ALL RISKS.

Note: The contents of this manual may be updated without notice.

1. SPECIFICATIONS

Rated power supply: AC110V 50/60Hz

Min. Power consumption: 520W

Max. Power consumption: 580W

Dimension: W65×D116×H105 in

Weight: Approximately 1150 lb

Part No: L110

Model No: C-506

! NOTICE: After turning off the game, please wait at least **1** minute before restarting again.

Note: Game specifications are subject to change without notice.

This machine will be divided into two parts during transportation.

Back Cabinet: W65×D28.8×H82.7 in

Ally part: W64.34×D87.21×H40.12 in

Note: Game specifications are subject to change without notice.

2. CONTENTS OF THE ACCESSORY KIT

Open the package and make sure all the items are included:

1. Following accessories

No.	Part No.	Code	Name	Picture	Qty
1	L110-902-000	25300171002	Key		8
2	L110-557-000	23301010020	Power cord		1
3	L110-903-000	41440000231	Manual		1
4	L110-558-000	41300000007	U disk (Manual)		1
5	L110-904-000	40607000012	Allen hexagon wrench		2

10	L110-801-001	20611605027A	Bowling ball (With Unis logo)	4	

3. PART NAME

Key Components

NOTE: The installation of the embed card system is to be complete by each individual location. (Not included)

The card reader is manufactured by Embed, smartTounch™ Insert (model: ICR-521).

4. SET UP & INSTALLATION

! NOTICE

We do not recommend using power tools as they may cause damage.

! This product is an indoor game machine. Do not install outdoors.

- Refer to IMPORTANT SAFETY INSTRUCTIONS (Pg. 3) for places to avoid
- Place the unit on a dry level surface
- Ventilation openings in the back of the unit must not be obstructed by objects or by wall.

4.1 Transporting the Game

If you need to move the game, adjust the levelers back to an “up” position.

! NOTICE

- Be careful not to damage the machine during transport.
- Always unplug the game before moving.
- Keep the machine in upright position during transport.
- For longer distance transport, package the game properly to prevent damages.

4.2 Level Adjustment

Install this machine on a flat surface. Adjust levers to lift casters off the ground to level the game. If the game is installed on an unsuitable floor, it could cause game malfunction.

To secure the game, adjust the Leveler down until it touches the floor, lifting the casters off the ground by 0.2 in. Repeat the same for all levelers.

! NOTICE

Make sure the machine is level.

4.3 Play Zone

This machine requires space for playing and for maintenance as shown below.

Leave space around the game upon installation:

Service area: 20 in

NOTICE

Your unit must be leveled to operate properly. Please assure that the cabinet levelers are in place and assure that the main cabinet and alleys are leveled. This will prevent the ball jamming.

4.4 Machine Installation

Before processing with assembly assure you have the following tools.

No.	Name	Picture	Use for
1	Phillips screwdriver		For Marquee Installation& Connect Lane Assembly
2	Wrench		
3	Allen hexagon wrenches		Connect Lane Assembly & Display Assembly

4.4.1 Marquee Installation

Step 1 Lift the marquee into place and attach to the bracket. Install hardware where indicated by the red arrows.

Step 2 Attach support bracket.

Note: It is recommended to have the minimum of two staff members available for this installation.

Step 3 Install the bolts as indicated in the green area.

No.	Part No.	Code No.	Name	Picture	Qty
1	L110-108-000	20101020145	Cross recessed hexagon screw set		8
2	L110-899-000	20211605037	Fixed connected rod		2

4.4.2 Connect Lane Assembly

No.	Part No.	Code No.	Name	Picture	Qty
1	L110-131-000	20104023002	Cross recessed hexagon screw		8
		20113040060	C flat washer		8

Step 1

Open the coin door and the ticket door to bolt the lanes together utilizing the hardware indicated by the red arrows.

Step 2

Open the back plate and attach the screws in the red arrow area.

4.4.3 Install the Bowling light cover

Install Bowling light cover with four screws.

No.	Part No.	Code No.	Name	Picture	Qty
1	L110-132-001	20101040007	Hexagon flat round head screws		4
		26000053000	Black Washer		
		20113000055	C flat washer		
2	L110-878-000	20611605003	Bowling light cover		1

4.4.4 Connect Lane Assembly & Display Assembly

Step 1 Place the Lane Assembly in front of the display assembly for alignment.

Step 2 Plug in the alignment cylinder as picture.

Front of the Display Assembly

Step 3 Align the back cabinet with the lanes.

Step 4 Use the Allen hexagon wrench (Provided) to lock the back box with the lanes as indicated.

Step 5 Lower leg levelers into place for initial leveling of the back box and the lanes if the floor is uneven.

Step 6 Add ball to each lane and apply power.

Step 7 Once game is powered on and operational place it in position. Utilizing the leg levelers to assure the back box and lanes are level with each other.

5. HOW TO PLAY

- 5.1 Insert card to play.
- 5.2 For competition, insert card to active each lane.
- 5.3 Roll the ball down the lane to hit the pins.
- 5.4 Enjoy your entertainment bowling experience!

5.5 Game scenes

NOTE: The installation of the embed card system is to be complete by each individual location. (Not included)

6.3 Display Advertisement Operation

In Version 1.05 or higher version for Lane Master, operator can put advertisement to the machine and display on the top monitor.

Please note that the advertisement video format has to be **AVI**.

Please prepare a **mouse**, a **keyboard** and a **memory stick**.

Step 1

Power down the machine. Plug in a mouse and a keyboard. Power up the machine. Insert a memory stick after the pc shows system interface.

Note: Please do not put any ghost system file to the memory stick and do not insert the memory stick before powering up the machine. This may cause damage to the system.

Step 2

1&2. Click "Start"  and choose "Computer" 

3. Click "GameDGho"

4. Click "Videos"

Videos

5. Copy the AVI file from memory stick into "Videos" folder.

Step 3

Unplug the memory stick. Power off and restart the machine. The advertisement video will be shown on the top screen. If the video format is not AVI. It will show an error as below.

7. TROUBLESHOOTING

7.1 Common Problem

Please confirm that all connectors fit tightly.

Symptom	Possible Cause	Recommended action
Game will not start	Frame assembly connector is loose.	Check connector.
	Frame assembly fault	Contact with UNIS Service.
Power off	Circuit protector make power SW in off state.	Turn on power SW again. If appeared again and again, machine has anomaly. Please contact with UNIS Service.
Card reader not working	The connector is loose.	Check connector.
	Card reader fault.	Check with card reader manufacturer.
No ticket dispensing	Out of ticket.	Add ticket and press reset button
	Ticket jamming.	Remove the jammed tickets and press reset button.
	The connector is loose.	Plug the connector tightly.
No sound	Low volume	Raise the volume.
	Connector loose.	Check connector.
	Speaker fault.	Check speaker.
	POT installation error.	Install POT correctly.
	POT fault.	Change POT.
	Audio cable problem.	Reconnect the audio cable or change it.
	PC crash.	Restart or system recovery.
Display black screen	Driver problem	Restart the audio driver.
	Check connectors.	Plug in connector tightly
	Display fault.	Utilize another source such as a PC to verify if the display is operational.
Display blue screen	RAM is loose.	Remove and reinsert RAM.
	PC power cord is loose	Check PC power cord whether is loose.
	VGA signal cable is loose.	Check VGA cable
	PC video card is loose.	Reseat video card.
	"0X000000A" code appears. Conflict between computer drive and software.	Contact service

Note: After replacing component from pc (except for RAM), and replacing monitor, the game should be recovered again with the memory stick attached to the machine.

If you see following error signs showing on the display, please try the recommended action.

Display	Possible Cause	Recommended action
	The connection part of the IO board and PC are loose.	Check and reconnect the loose ports of the PC or IO board.
	USB cable quality problem	Change the USB cable after checking the connection between IO board and PC.
	USB cable became loose during transportation.	Check and reconnect the loose cables of the PC or IO board.
	IO board is faulty.	Reboot the game after checking USB connection and USB cable problem, if the problem remains unresolved, please call the service department for assistance.
	Out of ticket.	Refill ticket
	Loose connection of the ticket dispenser's cables.	Check and reconnect the loose cables to the ticket dispenser.
	Ticket dispenser is faulty.	Change the ticket dispenser.
	Ticket jam.	Remove jammed tickets.
	Out of ticket.	Refill tickets and press reset button.
    	Loose connection to the sensor's cables.	Check and reconnect the loose cables of sensor.
	Sensor problem.	Change the sensor after checking the connection.
	Wrong format for the video.	Please note that the advertisement video format has to be AVI .

Display	Possible Cause	Recommended action
	Loose connection of the send ball assembly.	Check and reconnect the loose cables of send ball assembly.
	Send ball assembly is broken.	Check the connection, if the problem remains unresolved, please call the service department for assistance.
	No ball found inside the lane.	Roll a ball to the lane.
	Sensor problem.	Change the sensor after checking the connection.

7.2 System Recovery Operation **(NOTE: Do not disconnect power during this process.)**

1. Turn off the game. Remove recovery USB from the header. (Note: This process may take up to 60 minutes) Insert the memory stick into the USB port at the back of the computer.
2. Restart PC to enter the system recovery screen as shown.

3. The game will automatically start recovery.
4. Once system recovery is partially finished (as shown below), and the ICON appears, remove the USB flash drive from the computer. The game will continue the install process.

OK to remove the USB.

5. Assure that the recovery USB has been properly secured for future use.

WARNING: the USB flash drive should only be used to fix software errors. Using it for other purposes may cause unexpected results and damages.

8. MAINTENANCE & INSPECTION

8.1 Safety Check

Check the points listed before operating the machine. These checks are necessary for safe machine operation:

1. Test game before operation each day.
2. Conduct monthly routine checks of game components to ensure good working condition
3. Check the machine regularly for dust and clean when necessary.

Note: Parts and components require preventative maintenance to maintain proper operation.

8.2 Handling Precautions

When installing or inspecting the machine, be very careful of the following points and pay attention to ensure that the player can enjoy the game safely.

Non-compliance with the following points or inappropriate handling running counter to the cautionary matters herein stated can cause personal injury or damage to the machine

NOTICE

We do not recommend using power tools as they may cause damage.

8.3 Lane Maintenance

8.3.1 Cleaning

Utilize a non abrasive cleanser to clean the lane. Avoid excess water or chemicals.

Sensor

Use the key to open the drawers on two sides. Use the Debris removal stick in the drawer to clean debris.

8.3.2 Disassemble the lane sensor

Loosen 5 screws to remove the sensor cover.

Sensors can be changed individually or you can remove the screws at two sides to take out the whole sensor mounting plate to change the sensor.

Note: Please remove the cable ties before servicing this part and retie them after servicing to avoid damage to the connection.

8.4 Disassemble the lane front plastic

Loosen 4 screws on the wood board under the front plastic

Lift up the front plastic. Unplug the plug before take out the front plastic

If liquid poured on the front plastic, there is a hose under the front plastic which can drain the liquid out of the cabinet.

8.5 Display maintenance

8.5.1 Disassemble displays

Loosen 4 metal plates in order 1-2-3-4

NOTE: PLEASE UTILIZE ASSISTANCE FOR THIS PROCEDURE.

Metal plate 1 (3 screws)

Metal plate 4 (2 screws)

Metal plate 2&3 (2 screws)

Note: Please hold the plastic of the display when removing metal plate 4 or it may drop down. Please reassemble the display part in reversed order. (4-3-2-1)

(This process requires assistance.)

8.5.2 Disassemble marquee display

Loose all the screws on the surface of the marquee plastic, and make sure there is enough space for placing the plastic, avoid any scratch to the plastic.

8.5.3 Cleaning display

After disassemble the display part, clean the display with approved cleaning product.

8.5.4 Disassemble Lane Plate

Before processing with disassembly assure you have the following tools.

No.	Name	Picture
1	Phillips screwdriver	

1) Remove the bowling light cover.

2) Remove parts below in proper order.

No.	Part No.	Name
1	L110-883-000	Lane side light plastic
2	L110-892-000	Lane clear plate
3	L110-248-000	Lane board

2-1) Remove lane side light plastic.

Remove screws on lane side light plastic.

2-2) Remove lane clear plate.

Remove screws on lane clear plate.

Note: It is suggested to take off flexible side light before disassembling the lane clear plate.

2-3) Remove lane board.

Remove screws on surface on lane board.

Remove screws on the metal.
