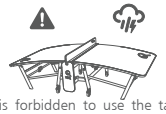
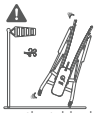
SAFETY AND WARNINGS

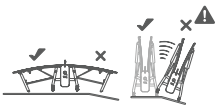
Please, follow closely these instructions when assembling the table; warranty claims are not valid if the assembly is faulty. TEQ Smart table is a specially designed piece of sports equipment and it is not suitable for any other purposes.



It is forbidden to use the table in extreme weather conditions (storm, lightning, under -20 and above +40 degrees Celsius).



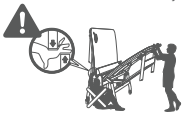
Please store the table sheltered from the wind as otherwise accidents can happen.



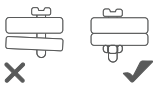
It is forbidden to keep the table on sloping ground either folded or unfolded.

It is forbidden to jump, stand, sit or lean on the table.

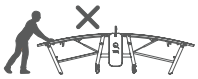
Do not wear jewellery or watch during the assembly or playing.



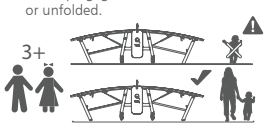
Do not touch the moving elements during moving or folding up/down the table.



Do not use with missing components.



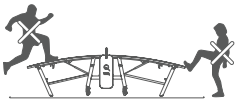
It is forbidden to move the table in unfolded position.



Do not leave children unsupervised around the table (including setting-up and storing periods as well). Not allowed under age of 3.

It is forbidden to store the table without locking the wheel.

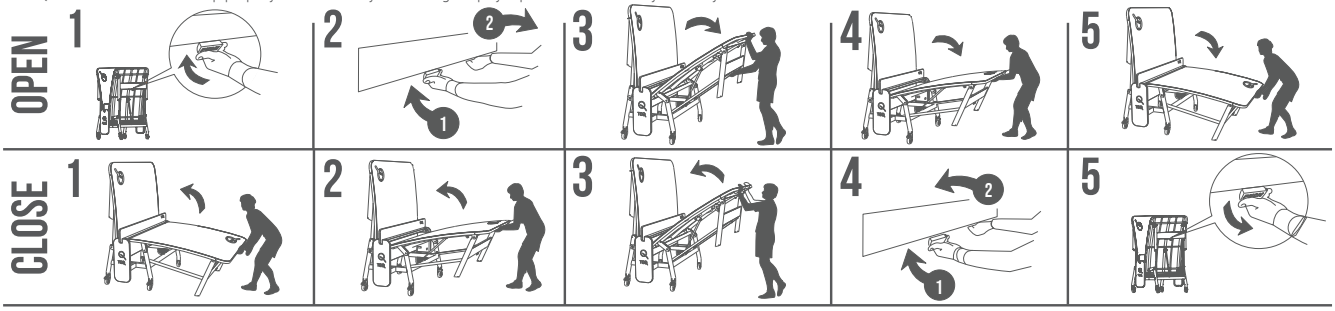
If the security label with the serial number is damaged or removed, the warranty is invalid!



It is forbidden to jump on or kick the table.

HANDLING & MAINTENANCE

The TEQ Smart table must be set up properly. This is not only for better gameplay experience but also for your safety. Please follow these instructions:



Clean the surface with warm water and use a mop (DO NOT use any abrasive sponges). Regular maintenance is essential to keep the TEQ Smart table safe and reliable. Before each use, visually inspect the TEQ Smart table to ensure that the product is usable (all part are intact, free from deformation, cracks and fractures). At least twice a month check all screws, nuts to ensure that they function properly (it is recommended to check the bolts more frequently in regular use). The fasteners are coated with adhesive which acts during the first assembly. The adhesive can prevent the self-loosening of the fasteners, in case of disassembly the adhesive loses its functionality. Please do not remove the adhesive from the fasteners. During the periods when your TEQ Smart is out of use, it is recommended to fold up the tabletops, cover the product and store it indoors. This way you will have a better chance to avoid weather-caused damages such as fading of the tabletop or corrosion of the steel structure. Replacing any component with an improper part makes the table unsafe. Always use original TEQ Smart components for replacements! In case of any question please contact us on support@teqball.com

TEQBALL PRODUCT WARRANTY (EU,US)

Teqball is proud to provide the following warranty (the "Warranty") on its high quality products to its consumer Customers, beyond any other legal remedies or warranties that they may have under applicable law:
Risks/costs covered by the Warranty: latent product defects relating to materials and/or workmanship; shipping, packaging, handling and customs fees relating to product repair or replacement; repair costs;
Risks/costs excluded from the Warranty: product surface damage (except paint damage or rust caused by manufacturing defects, which are covered) ; damage caused by misuse, neglect, accident; damage caused by not following any instruction in the Owner's Manual; normal wear and tear; damage suffered in transport; damage suffered during or after a repair or installation by unlicensed third parties; potential, indirect, incidental, special, punitive or consequential damage, even if informed of the possibility of such beforehand;
