# MASTERED KNOW-HOW

Cornilleau is developing in the global market place thanks to high quality, innovative products with a distinctive design. Through the development of a brand new generation of wheels, we have succeeded in improving the mobility and manoeuvrability of our tables, without ever making the slightest compromise in terms of safety, stability and sturdiness. All the Cornilleau tables are developed and manufactured in France, within the very hub of the business, in Bonneuil-les-Eaux in the Oise department (Picardy), the Cornilleau family's native village. The research and development laboratory associated with the marketing unit are here at the heart of the factory: 'Made in France' grey matter intended to devise, design and manufacture all the products, for today and tomorrow.

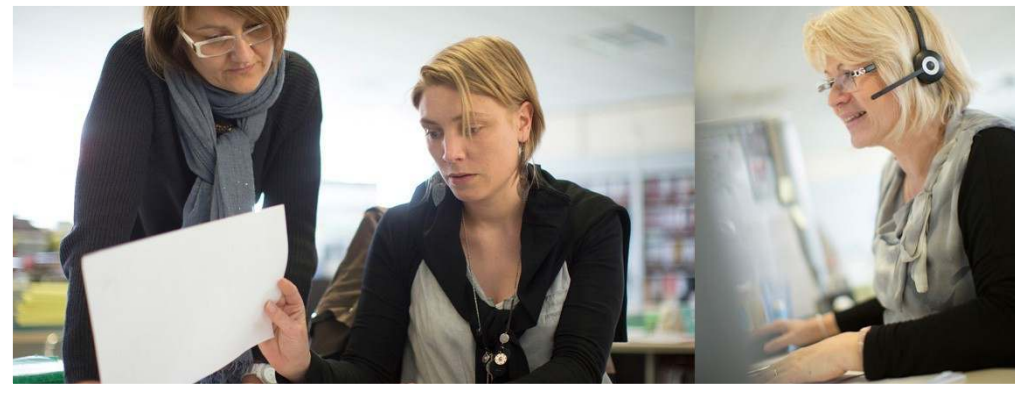

MADE  
IN FRANCE

# THE CONFIDENT CHOICE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts). All our tables adhere to the European safety standard EN 14468. Nevertheless, in order to ensure the highest level of safety, Cornilleau has positioned itself a long way above this standard.

Cornilleau strives to offer the highest quality products. However, some of our products undergo wear and tear over time. That's why we feel it's important to provide you with the best possible after-sales service. Our after-sales services goes beyond simply exchanging your product in event of a problem. It also covers managing your delivery, table assembly and providing telephone or computer support for online customers.

**You have questions?  
Please contact  
our after-sales service**

By phone at +33 3 44 80 22 22  
from Monday to Friday from 8am to 12pm and from 1:30pm to 5:30pm  
Via chat or drop us an email  
on our dedicated website:

[www.cornilleau-services.com](http://www.cornilleau-services.com)

5

# BUILT-IN DURABILITY

Cornilleau guarantees its OUTDOOR tables for 10 years and its INDOOR tables for 3 years. To make sure you continue enjoying your table long after your guarantee period, we promise that our spare parts will be available to you for 20 years. Cornilleau is synonymous with built-in durability!

# ACTIVATE YOUR GUARANTEE

Congratulations, you have just bought a Cornilleau table. Now's the right time to take advantage of Cornilleau's services. To activate your guarantee (3 years on Indoor tables and 10 years on outdoor tables), we invite you to create your account and save your table information on the following page:

[www.cornilleau.com/en/activate-guarantee/](http://www.cornilleau.com/en/activate-guarantee/)

Once your guarantee is activated, you will find all the information about your table as well as your order details. You will also ensure the availability of spare parts for your table over a 20-year period.

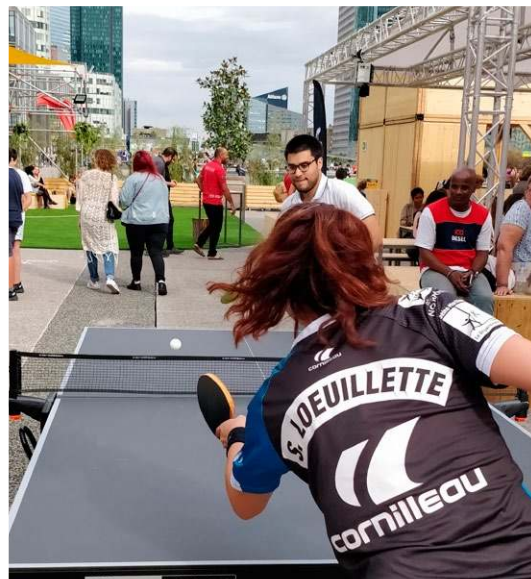

PING DOWN  
THE STREET

# GARDEN PARVIS

From 11 July to 25 August 2019, La Défense main square was the scene of a rather unique event combining a variety of entertainment, concerts and street food. With its open access ping-pong and pool tables, Cornilleau played a key role in bringing the Garden Parvis to life and making the

whole thing a social occasion. One of the event highlights saw professional players Stéphanie Loeuillette and Romain Lorentz come along and play with passers-by for a day, treating them to the thrill of challenging the champions.

6

# PING! ENGLAND

Throughout the summer 2019, the 9th edition of PING! ENGLAND gathered together nearly 500,000 participants, who for 2 months once again had the opportunity to play on over 600 Cornilleau tables spread right across Britain, including around a hundred in the capital itself. Ping is so British!

# PING TOUR

The Ping Tour is a truly unique promotional tour, orchestrated by the French Table Tennis Federation and Cornilleau. The 2018 edition, which ran from 8 May to 8 September, encompassed France's largest cities so as to enable the greatest number of people to experience all the Ping universes. Roll on the 2020 edition!

# CROSSOVER OVERSIZE DOUBLE WHEELS

## CLEARANCE

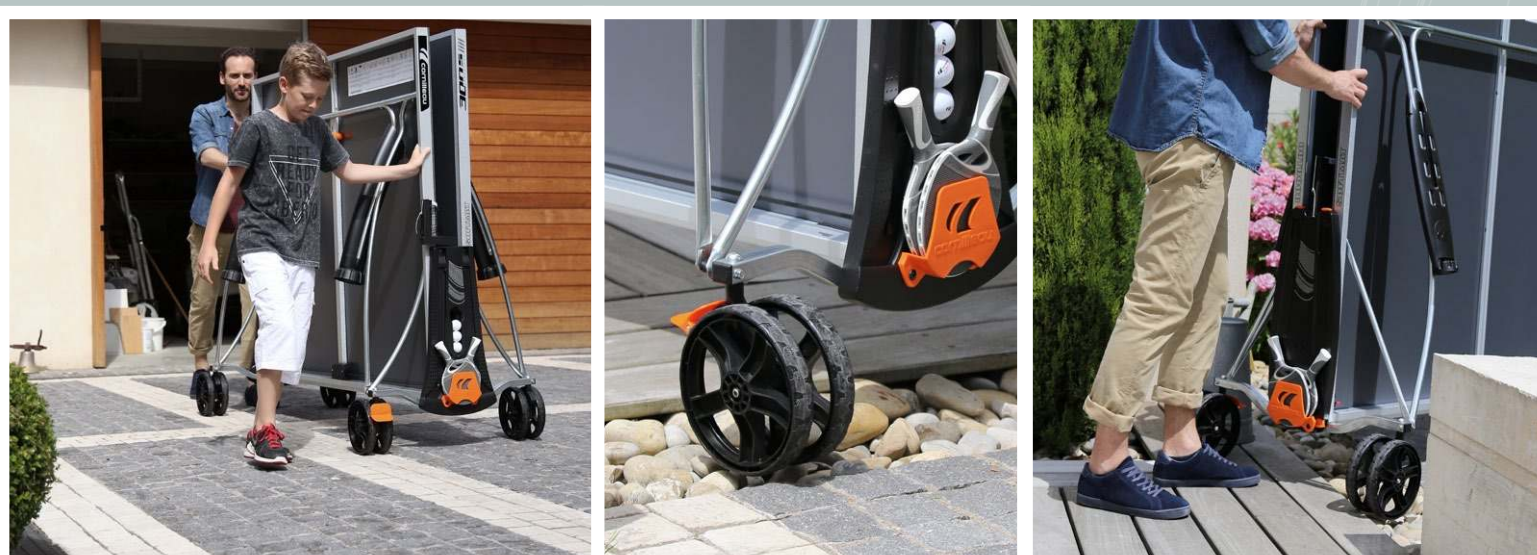

The diameter (200mm) of our new Oversize wheels, combined with their ultra-robust design, offers unique clearance (kerbstones, terraces, pavements, etc.).

## FLEXIBILITY

The bracket links the two wheels at the very spot where there are the greatest mechanical stresses. As such, our engineers have taken very special care with the design of this part, in order to make the table incredibly easy to manoeuvre in any situation.

## MANOEUVRABILITY

The greater the number of wheels the greater the load-bearing capacity. As such, the use of wide, twin wheels (32mm), significantly improves the manoeuvrability of the table, especially on varied (lawn, gravel, wooden terrace, etc.) or uneven terrains.

**BOUNCE HEIGHTS**

Cornilleau has been a pioneer in «outdoor» tables for the garden. They are designed with anti-corrosion materials ensuring resistance to bad weather.

Panels in solid resin laminate, resistant to racket blows. The thicker the panel (5 to 9 mm), the better the bounce.

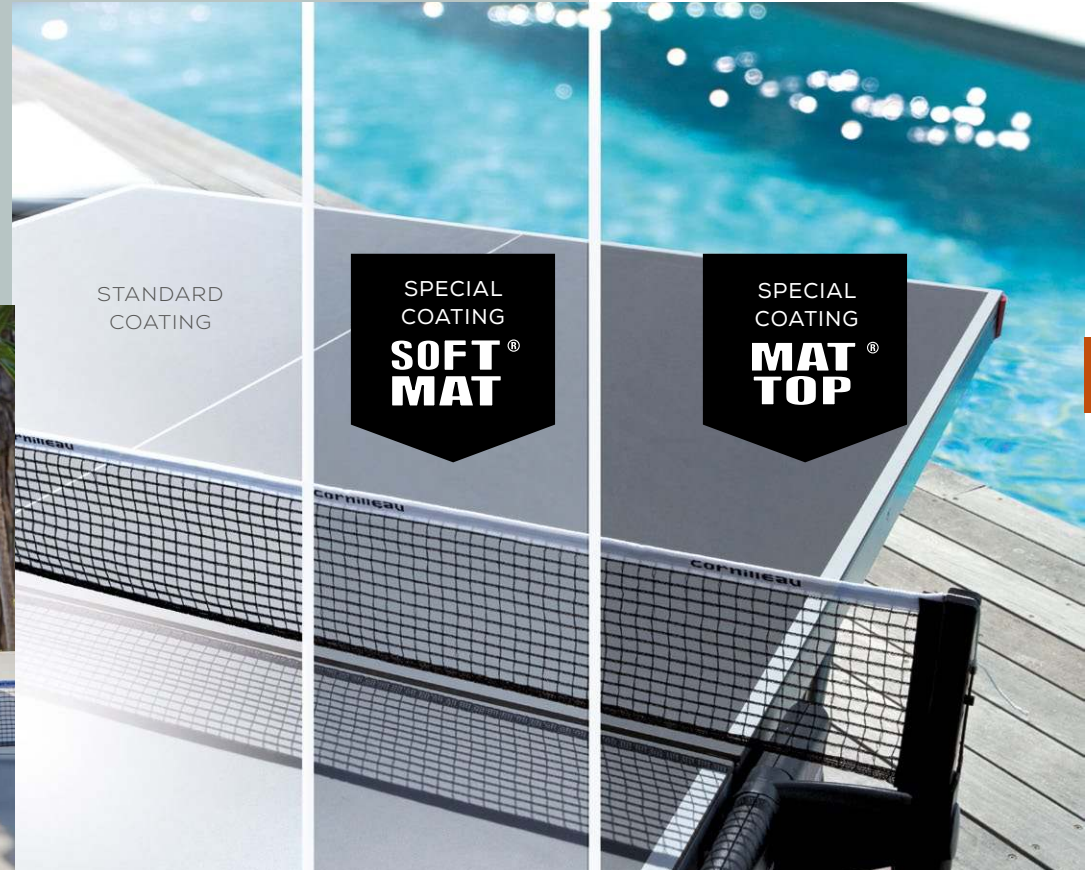

# MATTOP

10 TIMES LESS GLARE FROM THE SUN  
AND IMPROVED TRANSMISSION OF SPIN.

# SOFTMAT

3 TIMES LESS GLARE FROM THE SUN.

**PLAY  
IN THE SUNSHINE  
WITHOUT GLARES**

# AN EXTRA-ORDINARY STANDARD OF SAFETY

## CENTRALISED SYSTEM INTEGRATED DOUBLE SECURITY

Using a central release handle, the table can be opened and closed with extreme ease. The DSI system has 16 locking points. The table is fully locked in playing and storage positions. What's more, because of its unique system, if a child opens the table and releases the handle, the panel automatically locks at 65°, thereby avoiding any risk of accident. Finally, if the top is not fully locked in the playing position, a second locking level stops the top from flipping over.

## DECENTRALISED SYSTEM

The tabletop can be locked and unlocked thanks to a button system at the bottom and top of the side of your table. Composed of 8 locking points, it meets the safety standard.

# THE ADVANTAGES OF OUR LEISURE TABLES

## **OVERSIZE DOUBLE WHEELS**

The diameter (200mm) of our new Oversize twin wheels, combined with their ultra-robust design, offer unique clearance, manoeuvrability and flexibility.

## **RETRAC- TABLE NET**

The net swivels automatically between the two panels when you close the table, further optimizing storage space and providing better safety when stored.

## **EASY TRACK**

This handle enables you to easily lift the table over any obstacles (step, edge of the terrace, doorway).

## **ADJUS- TABLE FEET**

Wide leg pads enable you to adjust the height of the feet and ensure tabletops are perfectly level where the ground is uneven.

A photograph of two men playing table tennis outdoors. The scene is overlaid with a teal color. The man on the left is in a ready stance, while the man on the right is holding a paddle. A ball is in mid-air between them. A dark square box is centered over the image containing the text 'PERFORMANCE OUTDOOR TABLES'.

PERFORMANCE

# BEYOND THE LIMITS

19

Performance is a quest for perfection. It can only be achieved with a subtle combination of features such as playing quality, durability, safety, design and ergonomics. The tables from the Performance range don't compromise on any level. They benefit from the best technologies and features, to offer a unique playing experience. The exceptional bounce, sleek or stylish or subtle design, ultra-high performance materials, incredible durability, the guarantee for maximum safety, the attention to the smallest detail: without a shadow of a doubt, Cornilleau's Performance outdoor tables are the industry leaders.

## RELIABILITY WITHOUT THE FUSS

The Sport range tables have been designed to provide the best possible compromise. Light weight yet solid, resistant with optimal safety, they are great value for money making the tables especially appealing. Ultra-durable, shock resistant and weatherproof, like all Cornilleau's outdoor tables, they provide perfect playing quality for maximum enjoyment of ping-pong with friends or family. And to extend your enjoyment even further, they come with a 10-year warranty.

## EYE-CATCHING AND ENJOYABLE TO PLAY ON

A genuine reflection to wood. This exceptional material goes beyond any aesthetic value. The wood frame provides the table with unequalled sound and playing qualities. Contemporary by definition, this table rewrites the codes with its grey indoor top and its retractable net posts. These two ITTF approved innovations are completely new in the world of competition. The 850 Wood, which naturally combines performance with elegance will become a standard for major international competitions as well as perfect match for your interior design.

# 850 WOOD ITTF HIGH STANDARDS AND BOLDNESS

## SOLID WOOD LEGS AND FRAME

- Better channeling of vibrations  
= unrivalled sound quality

## UNIQUE COMFORT OF USE

- Retractable permanent posts (can also stay in position) = you save 30cm in width when folded.
- Angled frame (on players' sides)  
= more comfort especially during short play.

INDOOR  
 CHIPBOARD

OUTDOOR  
 LAMINATE - HPL

The Indoor tables are equipped with a painted chipboard tabletop. The main benefit of this playing surface is the great value for money compared with the rebound quality. That said, this tabletop definitely is not for use outdoors as the material is not designed to cope with bad weather. Rain and, by extension, moisture are its worst enemies (risk of distortion and blistering). The sun's rays are no exception, as they too very quickly damage the surface layer (risk of discolouration). The other major disadvantage of this so-called indoor tabletop is its fragility in the event of repeated impacting and/or friction (impact from a beginner's racket for example). You've got it, we strongly recommend that you opt for Outdoor tables, even when they are exclusively for indoor use (garage, cellar, etc.). Just as high performance for play, Cornilleau's Outdoor tabletops have the advantage that they're weather and shock resistant so they're ultra-durable. That's why we guarantee our Outdoor tables for 10 years (ref. page 5) compared with 3 years for the Indoor versions. So don't wait a second longer, whatever your style of Ping, opt for our Outdoor tables. You won't regret it!

# PARK

The Park table is manufactured in France from very hardwearing materials and demonstrates a sturdiness that readily translates to any situation, from impact, to bad weather to vandalism. It offers the best playing quality on the market in this category. Boasting a small footprint, the table can be set up in a park, beside a playground or in a campsite.

## PLAYING PERFORMANCE

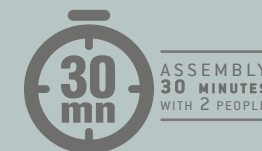

- Height and accuracy of bounce,
- Transmission of spin,
- White lines,
- MAT TOP comfort: 10x less glare from the sun,
- Approved by the French Table Tennis Federation.

# PERFORMANCE AND ELEGANCE

The official supplier to the FFT (French Table Tennis Federation), Cornilleau has used its know-how to benefit the performance of professional players for over thirty years. Top-level calls for impeccable quality and Cornilleau's response is a range of 5 ITTF-approved tables, which have proven themselves in the federations' competitions as well as kitting out the clubs. Given that ping-pong is so visually striking, these competition tables have also been designed to be eye-catching. The attention to detail in this regard imparts a unique elegance.

**CHAMPION  
OF FRANCE  
2019**

## COMPETITION INDOOR TABLES

Cornilleau has developed, designed and produced competition level tables for more than 30 years. All our tables comply with European safety standards EN 14468. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard and guarantees the tables against manufacturing defects for 3 years.

Cornilleau is the first manufacturer to develop this system for competition tables. The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use.

SKILTOP coating, specific to our competition tables, was developed with the best possible attention to detail. It ensures an extremely reliable and regular bounce, as well as optimum adherence to the playing surface for perfect return of play.

Thanks to a central unlocking handle, the table can be opened and closed extremely easily. The DSI system has 16 locking points. The table is fully locked in the playing position and folding position. The safest table on the market.

### "P-BALL READY" SKILTOP

- Spin-sensitive finish specifically designed for plastic balls.
- Non-reflecting, matt, water-based and environment-friendly paint.
- Grey color (available only with 850 Wood ITTF and 740 ITTF): for a better contrast with the ball.

STÉPHANIE  
LOEUILLETTE

### WHEELCHAIR PLAY

The leg assembly has been designed to allow for the locking of a chair under the table for wheelchair play. ITTF W standard.

### ROBUST MATERIALS

The materials selected for our competition tables are particularly robust (example: sides and feet entirely made of steel).

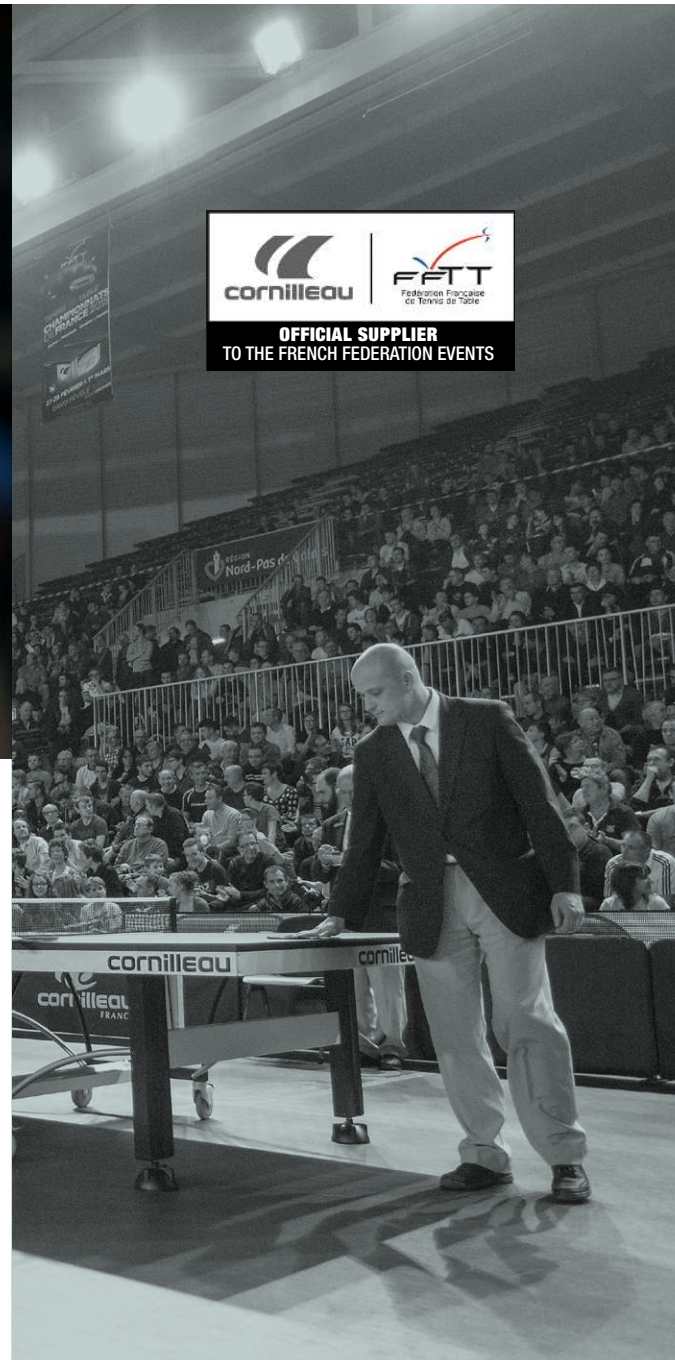

### FIXED POSTS

ITTF posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension.

### MINIMUM STORAGE SPACE

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each added table.

COMPETITION  
**INDOOR**  
TABLES

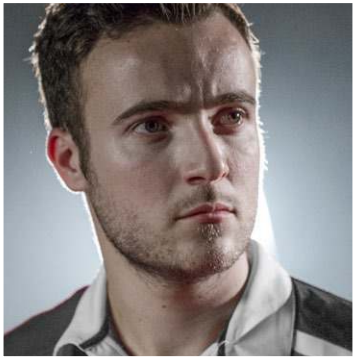

A genuine tribute to wood, this noble material which imparts unrivalled resonance and gameplay. With two innovations, its grey tabletop and collapsible net posts, that meet the ITTF requirements, the 850 wood table shakes up the codes. This table will delight competition players as well as all those who love design and a fine game. A desirable object, the 850 Wood table will sublimate contemporary and classic interiors. Blending the universes of design and table tennis, it appeals to those with an eye for the finer things in life as well as players striving for excellence.

## ULTRADURABLE RESISTANT

CORNILLEAU was a pioneer in the development of composite (dual-injection) outdoor ping-pong rackets made of composite with the launch of the TACTEO in 2005. Armed with this expertise, we were keen to take things a step further by teaming up with the ECO-CHARGES eco-design programme initiated by our injector partner and the company ARMOR LUX. After several years' development, CORNILLEAU is launching SOFTBAT, the world's first eco-design outdoor racket.

# EDUCATIONAL PING-PONG

**AT SCHOOL, IN A CLUB OR AT HOME: BATS  
FOR ALL AGES.**

There are plenty of great reasons to encourage a child to get into table tennis. It's a sociable sport, which can be played with several people and helps to develop psychomotricity, concentration as well as acumen. Umpiring is easy and a tool like BABY PING enables fast-track learning so a child can begin to play and have fun.

# INITIATION

## BABY PING KIT DVD, BATS AND BALLS

### BABY PING TO TAKE AN ACTIVE ROLE: A GENTLE APPROACH TO EDUCATION

Specially designed for 4 to 7-year olds, the Baby Ping kit is a training method favouring interaction with others and confidence in one's abilities. Baby Ping relies on recreational exercises to enable children to develop new skills, whilst stimulating thought and concentration. Taking inspiration from the imagination as children are so fond of doing, the world of the circus, wild animals and stories incorporated in this evolutionary method is in line with the programmes that form part of the national curriculum.

### SPECIALLY ADAPTED EQUIPMENT

The kit includes a DVD full of training content as well as ten two-tone 'Panda' bats, whose ergonomics are geared around use by children, together with fifteen balls that come in three varieties to support the development of young players. Specially designed, the bats enable youngsters to discover spin thanks to high-quality rubber, as well as how to improve ball control. The balls come in a variety of sizes and materials. Made of foam, they facilitate the first exchanges thanks to a slower speed but a dynamic bounce. The big balls, measuring 55mm in diameter, facilitate the strokes and the spin. Finally, two-tone balls allow the players to visualise the rotation.

## ULTRA-RESISTANT BATS FOR OLDER PLAYERS

### ERGONOMIC AND ECO-FRIENDLY: THE SOFBAT SCHOOL

## SOFTBAT SCHOOL

With its round handle and ergonomic shape that helps hand positioning, the Softbat suits little ones and bigger kids. Ideal for schools, associations and leisure centres due to its hardwearing qualities, it also helps to raise awareness about sustainable development. The first outdoor eco-design bat in the world, the Softbat is an educational tool in many ways.

**Sold in packs of 10**

### HARDWEARING AND HIGH-PERFORMANCE:

## TACTEO 30

Behind its pop of colour and its unique design hides a bat capable of withstanding all kinds of weather whilst offering the ideal playing quality for youngsters and older kids.

**Sold in packs of 5**

COMPETITION  
**PLAYER**

## TO FIND YOUR WINNING COMBINATION

Competition level table tennis requires the very best which drives Cornilleau to constant innovation. This driving force generates high-performance products.

Cornilleau targets the same objective as the athletes who choose the brand: excellence. Using the latest technologies to refine the playing performance of our material. The Cornilleau range designed for competitors ensures that players who are keen to have the best products. Rubbers, Blades, Textiles, accessories: to fit their unique style and game.

### THE RE-INVENTED TOP-SHEET

Every target top-sheet covering developed by the cornilleau and michelin experts (superior rubber) boasts a special formulation enabling improved elasticity combined with a unique pimple shape.

# TECHNOLOGY TO IMPROVE YOUR GAME

The special formulation and cell structure enable the NEXTENS sponge to interact more efficiently with the pimples below the surface that is in contact with the ball. The GT (GREAT TENSION) evolution in our NEXTENS sponge provides additional strength, as well as transmitting greater rotation onto the ball.

The IN-TENS sponge is an adaptation of our IN-TENS<sup>2</sup> sponge. It provides incredible control combined with powerful acceleration. It's as if it absorbs the energy in the passive game and releases it into the active game. Unique sensations guaranteed! The IN-TENS<sup>2</sup> sponge is at the pinnacle of the market's references in terms of the transmission of energy. It fully satisfies the expectations of even the most demanding players by providing enhanced contact with the ball, precision and comfort. It also guarantees maximum enjoyment thanks to the sound emitted with each stroke.

The GRIP EXTEND and GRIP EXTEND PLUS top-sheets enable you to transmit even greater spin in every phase of the game through their increased elasticity and impressive level of grip.

The SPIN-DRIVE 3D technology is the optimisation of 3 performance settings in the top-sheet's pimples: shape, size and density. Each TARGET covering features its own unique combination so as to reach a very specific target: grip + power for TARGET PRO GT, grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip + sound for TARGET Sound.

The optimisation of the density and geometry of the pimples is one of the keys to performance with the coverings.

- The FAST combination guarantees rapidity and power.
- The SOUND combination guarantees sensation and decibels.
- The SPEED combination guarantees speed and precision.
- The PULSE combination guarantees explosive acceleration and decibels.
- The SPIN combination guarantees control and rotation.

# TARGET PRO GT

TARGET PRO GT IS A RANGE OF RUBBERS 'MADE IN GERMANY' AND THE RESULT OF A RESEARCH AND DEVELOPMENT PROGRAMME INVOLVING CORNILLEAU EXPERTS, MICHELIN ENGINEERS AND THE WORLD'S LARGEST MANUFACTURER OF RUBBERS. THE TOP PRIORITY FOR THIS PROJECT: REACHING THE HIGHEST LEVEL OF PERFORMANCE AND SAFETY IN TOPSPIN AND COUNTER-TOPSPIN STROKES.

RUBBERS

# STRIVE FOR EXCELLENCE

## TARGET PRO GT

Plastic balls have now replaced celluloid balls. Michelin experts have managed to develop a rubber formulation that is entirely compatible with this new type of ball..

So if you are looking for initial strokes laden with spin, optimum precision in counter top-spin, sharp kills, ever more power when rallying loop to loop, as well as enhanced safety when taking the counter initiative... then, you have no time to lose: opt for the P-BALL READY technology!

**TARGET PRO GT-X51**

# COMPETITION PLAYER RUBBERS

## PILOT FAST

2,0/MAX - RED/BLACK

Pilot Fast is one of the most highly responsive rubbers on the market. With its 40° IN-TENS<sup>2</sup> sponge associated with its grippiest and most dynamic top-sheet (GRIP EXTEND and FAST technologies), Pilot Fast is a genuine concentration of energy and speed.

## PILOT PULSE

2,0/MAX - RED/BLACK

Pilot Pulse offers a unique tone and explosive acceleration in topspin. Featuring IN-TENS sponge angled at 37.5° in combination with its higher friction elastic topsheet (GRIP EXTEND and PULSE technologies), Pilot Pulse is pumped full of energy with the perfect blend of speed, resonance and an ultra-precise feel in relation to the ball.

## PILOT SOUND POWER

2,0/MAX - RED/BLACK

Pilot Sound Power is one of the most sonorous rubbers on the market. With its 35° IN-TENS<sup>2</sup> sponge associated with its grippiest and most optimised top-sheet (GRIP EXTEND and SOUND technologies), Pilot Sound Power is a genuine concentration of energy and sensation.

BRUNA  
TAKAHASHI

### DRIVE INTENS

1,8/2,0 - RED/BLACK

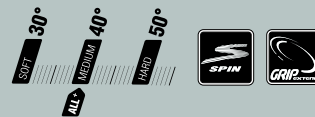

Drive Speed is a traditional covering 'Made in Japan' for offensive play. Its qualities: clean and immediate transmission of energy, substantial and lasting grip, fairly firm 45° sponge for greater precision. A classic for your offensive game.

### DRIVE SPEED

1,8/2,0 - RED/BLACK

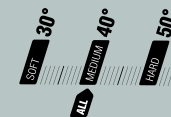

Drive Spin is a traditional all-round covering 'Made in Japan'. Its qualities: very substantial, lasting grip, moderate transmission of energy for greater versatility, fairly soft 40° sponge for heightened sensation. A classic for your allround game.

### DRIVE SPIN

1,8/2,0 - RED/BLACK

Drive Spin is a traditional all-round covering 'Made in Japan'. Its qualities: very substantial, lasting grip, moderate transmission of energy for greater versatility, fairly soft 40° sponge for heightened sensation. A classic for your allround game.

### START UP' EVO

1,8 - RED/BLACK

Featuring an enhanced grip (more substantial and more durable) than the first version of the Start Up', Start Up' Evo is even more effective at adding spin to the ball, whilst remaining very tolerant during counter-initiatives and return of serve. Start Up' Evo is the perfect rubber for making your debut in competition.

BLADES

# THE RIGHT BALANCE HINOTEC

The Hinotec blades are particularly appreciated by the players that make up Team Cornilleau.

## THE NOBLEST OF WOODS FOR EACH PLAYING STYLE !

Hinoki, which is present on the external ply and is combined with other carefully selected woods, offers a perfect balance between dynamism, ball handling and precision.

The Hinoki thus allows our Hinotec blade range to provide new sensations for each game style, and ensures a pleasurable game, as well as an extremely high quality finish.

Another notable aspect: unlike 100% Hinoki blades, which provide extremely high tones, the sound issued on each impact by Hinotec blades range will also delight you.

STÉPHANIE  
LOEUILLETTE

### HINOTEC OFF+ CARBON

Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance, and its stroke will convince the most demanding player!

- 5 - Plywood 85 g
- 1-5: Hinoki FL
- 2-4: Carbon
- 3: Kiri

### HINOTEC OFF

3 words to describe Hinotec OFF : power, sensation and precision. Resolutely offensive, this blade is easy to control under all circumstances. Experienced players will appreciate the ability to choose from a range of rhythms. The most polyvalent player can boost their game, as long as they are reasonable when it comes to choosing covering. The blade used by Can Akkuzu.

- 5 - Plywood 85 g
- 1-5: Hinoki FL
- 2-4: Limba
- 3: Kiri

### HINOTEC OFF-

Hinotec OFF - blade suits to any game style. Surprisingly dynamic for a blade of this category, it can also satisfy more experienced players, as long as they choose fast coverings, as well as the most polyvalent players seeking responsiveness in his attacks.

- 5 - Plywood 85 g
- 1-5: Hinoki FL
- 2-4: Limba
- 3: Ayous

### HINOTEC ALL+

A model of tolerance, Hinotec ALL+ blade is reassuring. Whether you are a polyvalent player, or just a beginner, this is for you! Don't get the wrong idea, this blade isn't slow. It provides startling sensations of control and ease of play, without ever letting you down when you need to speed up or strike the killing blow.

- 5 - Plywood 85 g

# TALISMAN MUSCLE & CHARACTER

TALISMAN  
OFF

The TALISMAN OFF wood (formerly known as QUEST OFF) boasts both personality and muscle. Designed for a polished offensive game combining fast play close to the table and variations in mid-distance rotations, this wood also has a very docile side in the different phases of closely controlled play. The harder Ovankole outer plies provide much needed additional pressure during put-away shots.

5 plywood  
85 g  
Flared

TALISMAN  
ALL+

The TALISMAN ALL+ wood (formerly QUEST ALL+) is the type of model favoured by players seeking control, where the focus is on incorporating variations in rhythm and rotations to obtain balls, which make for easy points. Used in association with the ALL/OFF coverings, this wood is the perfect ally for players trying to hone their game. Teamed up with OFF+ coverings, it will provide you with both precision and control in the counter-initiative phases, whilst never sacrificing your put-away shots.

# AERO

## LIGHTNESS & PERFORMANCE

PAUL GAUZY

### ULTRA LIGHT BLADES (70-75 G) EXTREME SENSATIONS

The concept allows optimal transmission to the handle of shock waves generated on impact with the ball. The hand's sensorial system immediately processes the sensations necessary for perfect response.

#### PLYWOOD

- 1 + 5 : Finline
- 2 + 4 : Ayous (or carbon for the OFF+ version)
- 3 : Kiri

FINELINE EDGE PROTECTION

### AERO OFF+ SOFT CARBON

Probably the lightest "Carbon" blade on the market! Its two "High Tech" layers (special blend of carbon and epoxy-resin fibres) will provide the owners of this resolutely offensive blade with unprecedented sensations of power and precision. A perfect choice for those who want to muscle up their game or just discover the joys of carbon!

5 Plywood  
75g  
Flared

### AERO OFF

Sensations and speed are greater than ever with the AERO OFF blade. Topspinners will love the incredible feeling of safety and ease of play it offers. AERO technology will also allow you to immediately enjoy perfect control and great comfort.

5 Plywood  
75g  
Flared

### AERO OFF-

With the big growth in "new generation" rubbers, often very fast, it is up to offensive players to choose the right blade to limit their counterattack and service-return fouls. This AERO OFF- blade features an extraordinary compromise between speed and security. Topspin enthusiasts will especially appreciate its flexibility as well as its haunting sound delivery.

5 Plywood  
75g  
Flared

### AERO ALL+

Rarely has a blade suited so many different playing styles. The AERO ALL+ blade is unique in offering instantaneous comfort and security while effectively making all offensive strokes. Unrivalled multi-use!

5 Plywood  
75g  
Flared

### AERO ALL

A real «featherweight», the AERO ALL blade is a sure winner for all players looking for maximum control and sensations. Whether you are a good all-around player or more defensive, you will be convinced after just a few rallies. Enjoy a new range of playing pleasures thanks to AERO technology.

## AFTER SALES SERVICE & SPARE PARTS

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from [www.cornilleau-services.com](http://www.cornilleau-services.com) for tables manufactured within a minimum of the last 10 years. Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and offer advice via a simple phone call to:

**+33 (0)3 44 80 22 22 from Monday to Friday from 08:00 am to 12:00 noon and 13:30 to 17:30 pm (French time).**

## SAFETY

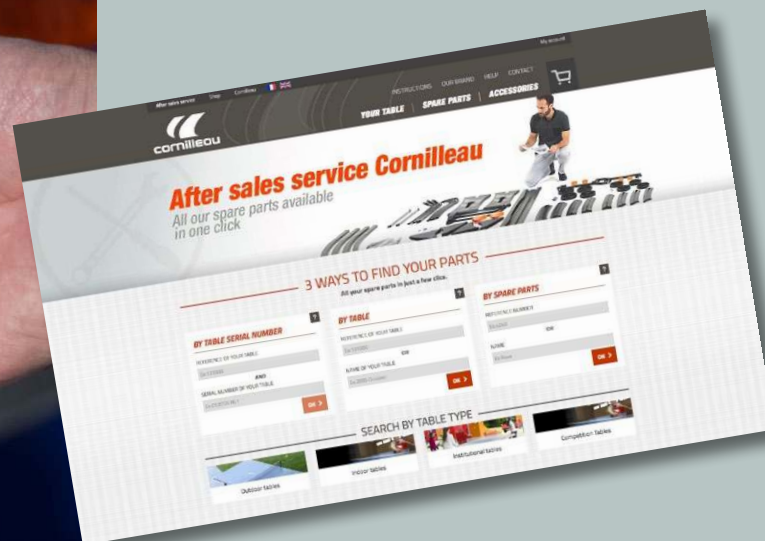

All our tables comply with the European safety standards EN 14468. However, in order to ensure the utmost level of safety, Cornilleau has positioned its products well above this standard.

## GUARANTEE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts).

## DIMENSIONS

- Cardboard packaging: height 141cm, length 157cm, width 10 to 20cm.
- Closed table: height 155cm, length 167cm (leisure and institutional range) and 183cm on all other models, width 75cm.
- Playing dimensions: height 76cm, length 274cm, width 152.5cm.

## PLAYING STRATEGIES

### DEF

DEFINITION: «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn his bat.

ADVICES: ALL to OFF- «inverted» rubber, with a sponge hardness  $\leq 40^\circ$ . Thickness of the sponge (for «inverted» rubber): less than or equal to 1.8mm. DEF to ALL+ blade.

### DEF+

DEFINITION: «Modern» defense, namely a DEF game with frequent counter-attacks generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ «inverted» rubber, with a sponge hardness  $\leq 42.5^\circ$ . Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

### ALL-

DEFINITION: A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or «antispin» on backhand, combined with an «inverted» rubber on forehand. The player barely turns his bat.

ADVICES: ALL to OFF «inverted» rubber, with a sponge hardness  $\leq 40^\circ$ . Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm. ALL to ALL+ blade.

### ALL

DEFINITION: varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ to OFF rubber with a sponge hardness  $\leq 40^\circ$ . Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

### ALL+

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness  $\leq 40^\circ$ . Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade.

### OFF-

DEFINITION: Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF/OFF+ rubbers, with a sponge hardness  $\leq 42.5^\circ$  on both sides. Thickness of the sponge from 1.8 to 2.0mm. ALL+ to OFF+ blade.

### OFF

DEFINITION: Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF+ rubber with a sponge hardness  $> 40^\circ$  on forehand and  $\leq 42.5^\circ$  on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade.

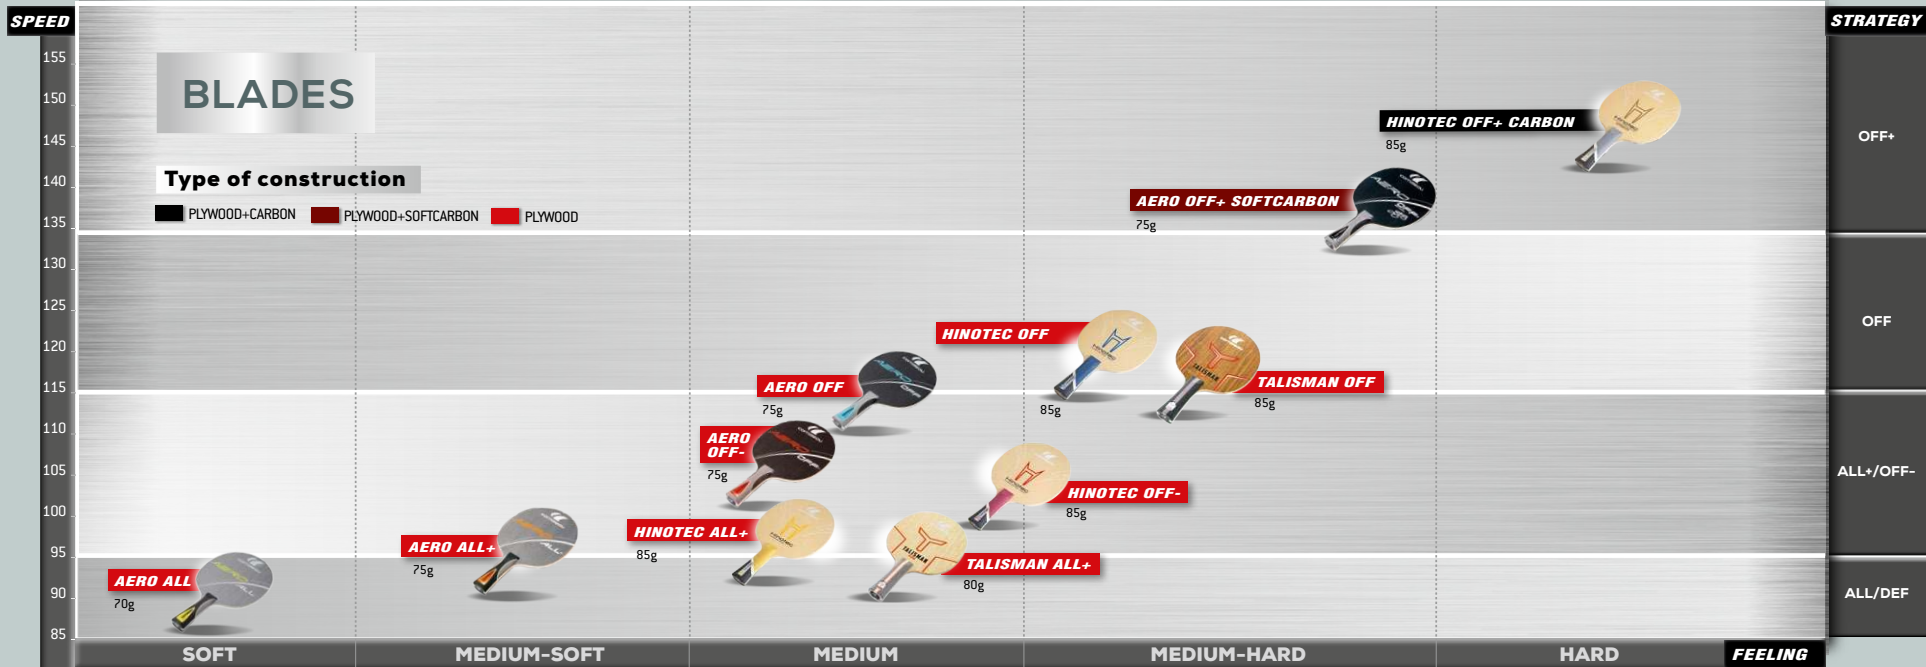

### OFF+

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

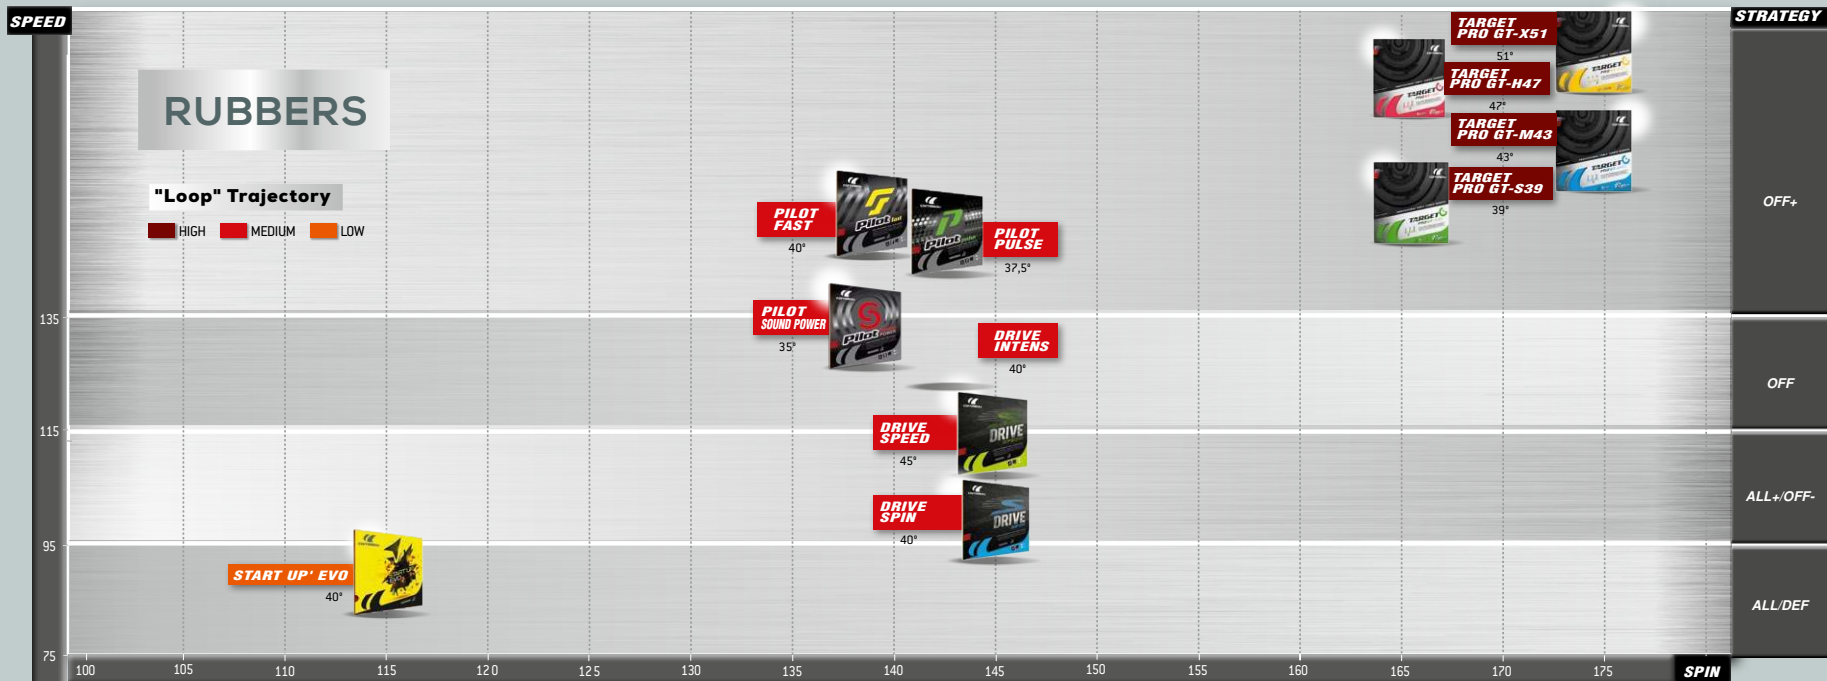

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

ADVICES: OFF+ rubbers with a sponge hardness  $> 40^\circ$  on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
